Cyberspace for Kids Grades 7-8 Mandel family 1999

Social Studies Teaching Activities Books Gary Lare 2006 An annotated listing of activities books for use with social studies curriculums, focusing on elementary and middle school grades, arranged by curriculum area, topic, and grade level. Includes contact information for publishers and distributors of appropriate books, and an index.

Geography of the United States Ted Henson 1998-05 Geography of the United States consists of individual units that examine these regions of the United States: New England, the Middle Atlantic States, the Southeast, the North Central States, the South Central States, the RockyMountain States, the Pacific States, and Alaska and Hawaii. All teaching strategies and activities were developed around the five themes of geography. Each unit includes background information and instructions for teachers on how to use the material. Reproducible activity sheets explore in depth each of the major regions. A complete answer key is included for teacher convenience.

Theme-based Reading Comprehension, Grade 1 Karen Breitbart 2003-07 With the increased focus on literacy in the classroom, it is more important than ever to provide students with interesting reading activities. The reading activities in Theme-Based Reading Comprehension help develop students' phonemic awareness, phonics skills, fluency, vocabulary, and comprehension. This book has been written thematically. The use of themes increases reading comprehension skills by focusing students' attention on one subject. Use the pages located within each theme as a unit or individually at different times throughout your school year. The themes are based on languages arts, math, social studies, science, and arts topics from the appropriate grade level. The activities within each unit reinforce comprehension skills such as finding the main idea, summarizing, inferencing, cloze procedure, compare and contrast, sequencing, cause and effect, story elements, classification, and more. The activities include a variety of multiple choice, fill-in-the-blank, short answer, and long answer questions. A standards correlation chart and pre- and posttest are included to help assess the progress of your students.

Super Sub Lorilynn 2000 Being a substitute teacher is a demanding and challenging job, even when the classroom teacher leaves behind well-laid plans. But when teachers are called away unexpectedly, the role of the substitute teacher becomes even more challenging! The strategies and activities in Super Sub come to the rescue with a wealth of ideas to make the day a good experience for both students and substitute teacher. There are great games and all-about-the-student activities that can be used with many different grade levels. Included are teacher-directed and reproducible activities appropriate for language arts, math, science, and social studies. This great resource will give the substitute teacher the confidence to make every day a great day in the classroom.

Assessments for Home Education Curriculum Weekly Tests and Recording Forms Fourth Grade Instructional Fair (Firm) 1999-06-01 Directly correlates with the lesson plans presented in our Home Education Curriculum series IF27000PB-IF27005PB. Evaluation methods may include simple illustration, matching, fill-in-the-blank, sentence completion, true/false, definitions, map work, short essay answers, and more. Checklists for each subject area allow home educators to keep track of skills that have been mastered or need more attention. Two-sided.

Science Up to Standards Pam Walker 1999-01-15 This book is loaded with activities based on the guidelines recently defined by the National Science Education Standards.

Using the Standards Jillayne Prince Wallaker 2003 Focusing entirely on Number and Operations, this book delves into three major content areas of the NCTM standards--Number Systems, Operations, and Computation. Students explore the relationships between numbers, the meaning of various operations and how they relate, and the techniques that make computation a breeze. Various formats of questions allow students to address one or more of the NCTM process strands on each page. The standards correlation chart and icons at the top of each page identify effective activities utilizing Problem Solving, Reasoning and Proof, Communication, Connections, and Representation. Skill checks and cumulative tests are included as well as vocabulary cards to help reinforce mathematical terms and symbols. Answer key provided.

Home Education Curriculum Instructional Fair 1997-06-01

Bible Based Math Puzzles, Intermediate Math Puzzles In Celebration 1996-03-01 What an exciting way to encourage students to memorize scripture! Primary and intermediate students alike will have hours of fun decoding the mathematical problems and unlocking the secret messages. When students complete the math problems, they will discover a scripture verse. An answer key is provided.

Inexpensive Science Experiments Pam Walker 2000 Not all science teachers have ready access to the equipment and materials they need to perform many of the experiments they would like to assign. If you are one of those teachers, you can stretch those science budget dollars with the labs included in *Inexpensive Science Experiments*. Gathering needed materials is quick, easy, and inexpensive, and many of the experiments are even cost free! Instructions are clear and concise with each lab accompanied by a teacher information page highlighting the objectives, the approximate time required for completion, teaching strategies, and an evaluation rubric. Each student lab includes a background page, pre-lab questions, a procedure page, and a set of post-lab questions.

Fun With Math Gr 4 Jan Kennedy 1998

Character Education Kathleen Knoblock 1997 Filled with teaching ideas, practical activities, and real-life problems to solve that stimulate students to think critically and act morally.

Teach Them Spanish!, Grade 1 Winnie Waltzer-Hackett 2001-04-01 Contains elementary-level lessons in practical Spanish designed for teachers who have little or no knowledge of Spanish themselves.

Beyond the Rules Elaine Dion 1998 The words we choose and the way we arrange those words reflect the choices we make, both consciously and subconsciously, every time we speak or write. The strategies and activities provided help students to become more conscious of those choices and the effects they have on their readers.

Using the Standards Instructional Fair 2003 The top-selling teacher resource line, The 100+ Series(TM) features over 100 reproducible activities in each book! Problem solving is the emphasis as students delve into diverse activities from all five NCTM content standards. Empower your students to build new mathematical knowledge, solve problems in context, apply and adapt appropriate strategies, and reflect on their thinking while reinforcing mathematical skills. Hands-on activities in a variety of question formats make the mathematics accessible to all learning types. Student-created problems help motivate students and communication prompts enhance mathematical speech and writing. Includes skill checks, cumulative tests, assessment guidelines, and vocabulary cards. The NCTM standards correlation chart and the icons at the top of each page make it easy to identify which content and process standards are being utilized. An answer key is also provided.
